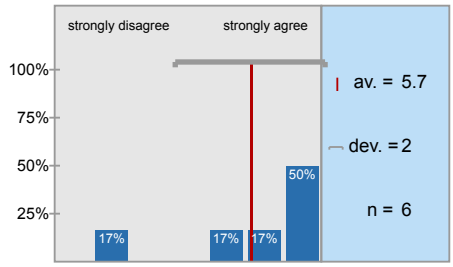
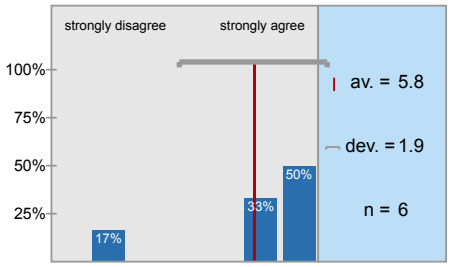
Histogram for scaled questions

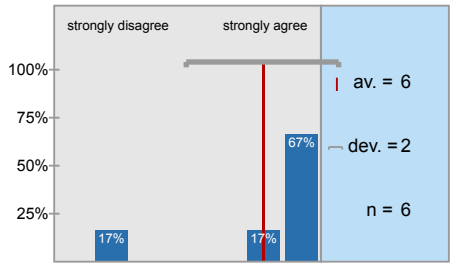
This instructor was effective overall.



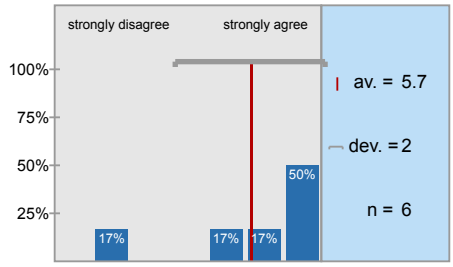
The instructor's explanations were clear.



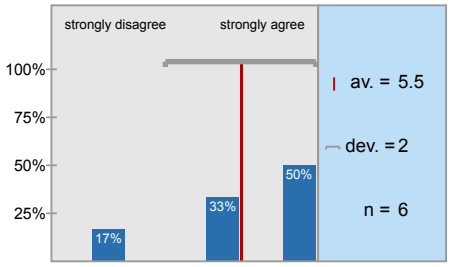
In this class, I was treated with respect.



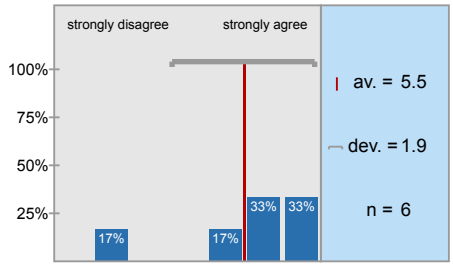
Materials used in this course (text, readings, notes, websites, etc.) were useful.



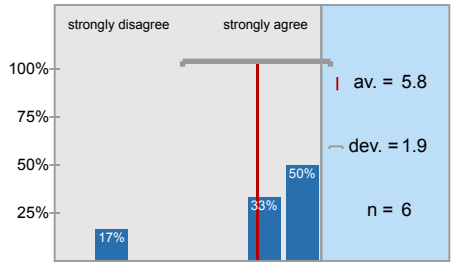
Assigned work was valuable to my learning.



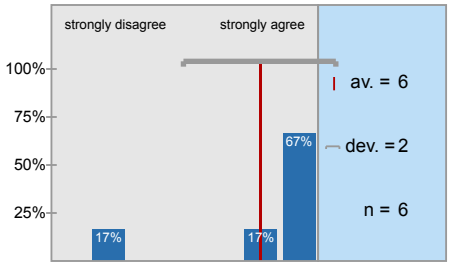
This class was well organized.



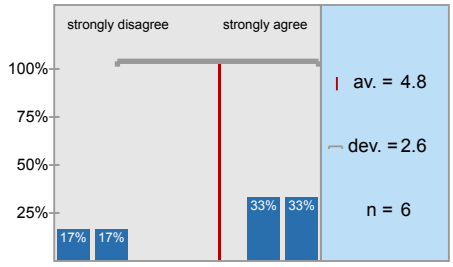
I knew what was expected of me in this class.



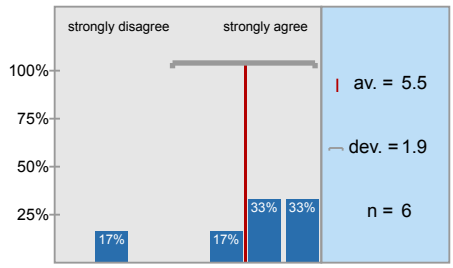
The instructor was well prepared for class.



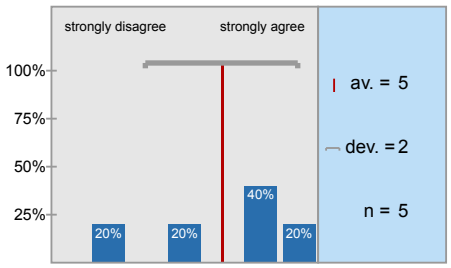
There was sufficient time in class for questions and discussion.



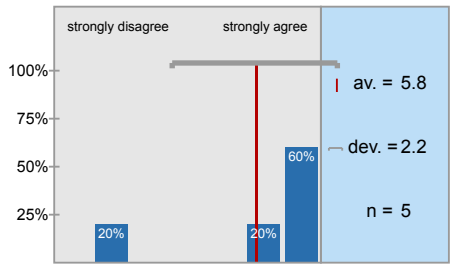
The instructor displayed enthusiasm for the subject matter.



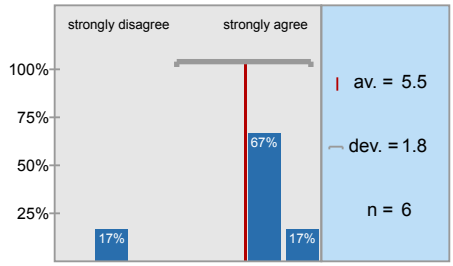
Methods of evaluation in this course were fair.



Feedback on my work was valuable to my learning.



The instructor was available for consultation outside class.



I learned a great deal in this course.

Comments Report

3. Open Response Questions:

3.1) What do you like most about the course and instructor?

- I liked that we got to go over the slides and work on what we needed help in
- Katie always made sure to explain everything and was fantastic at clarifying the material if any of us had questions. She is very patient and genuinely cares that you understand and learn from the class.
- The instructor always had a good positive attitude that made me want to interact and learn. She explained things fully until students understood how to do specific problems and didn't put students down for asking any questions. She was very helpful and patient. This instructor was the "go to" to understand certain material that NEVER made sense in lecture.
- The instructor was really nice and helpful whenever we had questions. Her explanations were easy to understand, much more helpful in comparison to lectures.
- What I liked most about this course and the instructor was that she made discussion very enjoyable and was able to break down the concepts that we had learned during the week in an easier format. She was very helpful when it came to answering the discussion's class questions, and was able to clarify many things that I was having trouble comprehending.

3.2) What could the instructor do to improve the course, if anything?

- A longer discussion period would have been beneficial to finish worksheets and ask more questions since the material was never made clear in lecture.
- I really liked the format of discussion. I believe she should keep that class format of beginning with briefly going over what was learned in class, and working on one or two example questions related to that week's worksheets , then giving us the time to work on the worksheets individually.
- Make labs longer, in order to have more time for working in the worksheets and asking questions.
- i would change the amount of time in class by just a little bit since sometimes there wasn't enough time.

3.3) Other comments or suggestions.

- 15/10 would recommend this TA to another classmate, without her, I would have been a deer in the headlights in this class. She made things easier to understand.
- Katie is the best TA I've had :)
- None
